27th May 2020

Dear Parents,

Update in relation to school reopening on 1st June

Please read the press release below given by Councillor Simon Henig, Leader of Durham County Council:

Council provides further information to schools on reopening

A North East council has provided further information to schools on plans for phased reopening.

Durham County Council has provided the information after new scientific advice was published on Friday 22 May and due to concerns that key issues outside of its control have not yet been resolved.

The advice from the government's Scientific Advisory Group for Emergencies (SAGE), states there is 'a consensus that evidence on the role of children in transmission of COVID-19 is unclear with a number of gaps in understanding'. It also says there is some evidence to suggest that children are as susceptible to COVID-19 as adults but advised that is not conclusive. Scientists have also advised government that the messaging to parents and teachers had to be 'robust' in order to 'enhance confidence and willingness to return.'

The council has also acted in response to data which shows the North East having the highest coronavirus infection rate in the country.

Its action is also in response to delays implementing the national Test and Trace system – seen as vital in managing children returning to school. The system will not be fully operational by 1 June, the date previously announced by ministers as when the phased reopening should begin.

The information the council has provided to schools advises that 15 June, the date the government has put forward for secondary pupils to return, is a more realistic date for the phased reopening to begin.

Cllr Olwyn Gunn, the council's Cabinet member for children and young people's services, said: "Our priority has always been the safety of staff, children and communities and we have issued extensive advice and guidance to headteachers and governing bodies with the emphasis on reopening only when risk assessments have been carried out and found to be of a high enough standard.

“We have at no point stated schools should return on 1 June. And in the light of the new scientific advice, high infection rates and the unacceptable delays in implementing Contact Tracing, we believe 15 June is a more realistic timeline for all schools to work towards, subject to government scientific advice and individual school risk assessments.

“Ultimately it remains a decision for schools to open when they feel it is safe to do so and I would like to place on record our sincere thanks to all headteachers and staff for the tremendous work they are doing to this end.”

Therefore, in the light of the above press release, the governors and staff of St Godric’s RC Primary School are disappointed to inform you that Phase One of school reopening is now scheduled for 15th June.

Staff have worked as a team to enable school to reopen on 1st June and we were well prepared. We are extremely grateful for all of their hard work and commitment. However, all new systems implemented will be set up and in place for 15th June.

Please do not hesitate to contact me if you have any questions.

Yours sincerely,

CM Craig and *M Stephenson*
